

SDS-Plus 4-cutter hammer drill bit inch

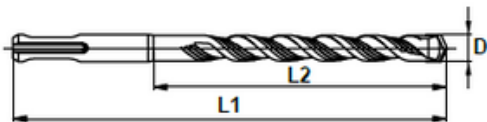

Application range

- > For masonry, concrete, natural stone, artificial stone, etc.

Advantages

- > Innovative production process ensures stability even with temperature fluctuations.
- > Centering tip for straightforward sport drilling with pinpoint accuracy.
- > Solid one-piece carbide head with specially developed cutting edges of equal height perforates rebar with permanent strength creates precise and dimensionally accurate holes.
- > Short flute entrances for optimized removal of drill dust.
- > The flute design allows a precise concentricity and minimizes wear and friction losses.
- > High-grade allow steel for toughest applications.
