Technical Data Sheet

EJOT FRP RO 2”

Product Information

The 2’’ plate attaches insulation, coverboard, or any component below the membrane to the substrate. The 2" washer may be used with manufactured hex head fasteners, Phillips head fasteners, or square drive fasteners

Method of Application

1. The EJOT flat roof plate can be installed using a screw gun. Make sure plates are placed within the seam area the ridges pointing out.
2. An EJOT fastener can then be used to attach the plate on to correct seam location once it is placed.

Storage

Store in original, unopened packaging and protect from weather.

Precautions

Eye protection must be worn during the installation of the fasteners with the plates.

Product Properties

Property	Performance
Material	AZ 150
Plate Thickness	0.020’’
Size	2’’ diameter (0.276” inside diameter)
Inside Hole Diameter	0.276’’
Corrosion test	Kesternich Test—DIN 50018—KWF 2.0 S: 15 cycles without redrust.
